Tucsonville, Arizona.
April 3/22.

M. F. Child,
Bureau of Plant Industry,
Washington, D.C.

Dear Sir:-

In reply to your query of the 17th ult, I am sending you
list of the plant material I have which is available to me.

My business is on very small scale and is really my
plant collection which has accumulated through the years. In about
five years ago I tried to turn my one talent to account and make a
business venture of it, but owing to the fact that for three years
I was working with the city parks, coupled with the fact that most
people are little interested in plants beyond a \$5 or \$10.00 or some
thing they can cut and put in a vase, my business is not a very flour-
ishing one. However, I am again trying to make it at least a little
more than self-supporting and the lists I am sending you are revised
to date.

I am also making a good collection of succulents, but as a
many of the items I have not had long enough to propagate from and
others are secured from various, unreliable sources and are not yet
classified, I have not compiled a list of them, but will make one as
completely as possible, if you wish it also. The bulk list is just
completed and of many of the items I have from one to six bulbs, so I
did not put prices on it, the species of which I have a quantity are
included in the older list. Of a few others I have a few available
locally or on special orders.

In the Fern list, the rock Asplenium and some others require
special care and are not for the amateur, so I eliminated them from the
list, but I have all of them in my Fern garden, excepting Asplenium
rumilum, which I can get at any time. My collection of ferns now in-
cludes something over one hundred species, but of many I have only a
few plants as yet.

Yours very truly,
Mary W. Diddell
Mrs J. P. Diddell.

Many of the plants crossed out,
were killed by severe cold of the
past winter, but hope to have
them later.

1938

PLANTS AVAILABLE
In The Collection of
Mrs. W. D. Diddell
333 E. 7th St.
JACKSONVILLE, FLORIDA

★ MAY 18 1938
U. S. Department of Agriculture

Orchids & Epiphytes:

<i>Dyrtopodium punctatum</i> :	Very large, specimen plants, only, bearing long, heavy trusses of flowers in March and April:	\$25.00
<i>Epidendrum concopseum</i>	Plants small, forming dense mats on trunks of trees. Can be removed in sections and is attractive lining for wire baskets, with leaves outside, inside filled with sphagnum, in which Adiantum or Phlebedium can be planted. Enough for basket	\$4.50, Smaller sections 1.00
<i>Epidendrum tampense</i> :	Plants small, flowers lovely and exquisitely fragrant. Blooming size plants	2.50
<i>Vanilla planifolia</i> :	Commercial Vanilla; plants climbing	1.50

BULBOUS & TUBEROUS-ROOTED PLANTS:

<i>Achimenes longifolia</i> :	Large purple flowers, yellow spot in throat	.15
<i>Alpinia nutans</i> :	Leaves aromatic when crushed, Flowers yellow-orange.	.50
<i>Dahlia Maxoni</i> :	Peruvian Tree-Dahlia, Long spikes of pink flowers, in December: Rare,	2.50
<i>Costus speciosus</i> :	Beautiful foliage plant with red-bracted heads of orange-red flowers:	.50
<i>Crinum Americanum</i> :	Beautiful, large pinkish white flowers, six to eight to spike: Blooming size bulbs	.25
<i>Crinum longifolium</i> :	Flowers pure white, very hardy	1.00
<i>Crinum</i> sp ^{very} longifolium ^{longifolium} :	Very large, pure white flowers, with black anthers, drooping, 6-10 on tall scape. Very beautiful	.75
<i>Hedychium coronarium</i> :	Ginger Lily. Beautiful, fragrant, pure white flowers, shaped like butterfly:	.25
<i>Maranta arundinacea</i> :	West Indian Arrowroot: Handsome foliage Plant	.25
<i>Messonia pustulata</i> :	Broad, ribbed leaves, resembling juvenile stage of Cocoa Palms. Flowers small, yellow, numerous in large, densely bracted head, borne just above surface of ground. Leaves to 5-ft or more. Small 50¢, Speciman plants	2.50
<i>Montbretia</i> :	Well known bulbs of Iris family: per doz.	.25
<i>Pandanus Veitchii</i> :	Variegated white: Small plants 50¢. Large, Spec.	5.00
<i>Sansevieria Guinensis</i> :	Broad, recurved leaves, mottled white	.25
<i>Sansevieria Zeylanica</i> :	Slender, stiff, pointed lvs, mottled white	.25
<i>Xanthosoma sagittaeifolia</i> :	Immense, dark-green lvs, reaching height of 8-ft or more. Flowers large, creamy-white. Large Bulbs 25¢, larger 60¢, Very large, with stem developed	2.00
<i>Yucca aloifolia</i> , Spanish Bayonet:	Nice plants:	.25
<i>Zebrina dracuncoides</i> :	Upright growing, large, slightly variegated leaves. Nice plants 25¢, large	1.00
<i>Zephyranthes carinata</i> :	Usually known as roseum, Large Pink fls.	.15
<i>Zephyranthes candida</i> ,	Flowers white, fall-blooming	.08
<i>Zephyranthes robustus</i> ,	flowers large, lavender-pink, white throat.	.35
<i>Zephyranthes</i> sp. From Peru.	Flowers pure white, Smallest and daintiest of all. Very rare.	1.00
<i>Zephyranthes treatiae</i> ,	Flowers white, tinged pink outside, blooms in Winter and Spring	.25
<i>Zephyranthes roseum</i> :	The loveliest of all. Flowers rose-pink, smaller than <i>Z. carinata</i> , blooms late Summer and Fall. A limited number of these bulbs are available from stock originally brought from Cuba before the embargo	.50

NONSTOP FLIGHT

2.

BULBOUS & TUBEROUS-ROOTED PLANTS, Continued:

Zingiber mioga: Ginger, Japan. Curious, yellow flowers $1\frac{1}{2}$ in. long, borne in bracted head, close to ground. Inedible.	\$.25
Zingiber officinale: Edible Ginger.	.25
Zingiber sp. China. Flowers small, pure white, in bracted heads, crowning a leafless scape. After flowering, bracts turn deep wine-red, which open, disclosing shiny, black seeds, embedded in white membrane. Very rare. Small Plants	1.50

Climbing Aroids:

Monstera deliciosa: Immense leaves, curiously cut and perforated. Heavy, boxed plants \$5.00. Very large, specimen 10.00	
Nephthytis Liberica: Handsome in all stages. Leaves ultimately deeply lobed and divided from circinate base. On young plants or those not climbing, sagittate or 3- lobed. Easily propagated & fine for growing in end of greenhouse, where too cold to keep out doors. 25¢ and	.50
Philodendron: Well known ornamental pot plant for living room or porch. 25¢ &	.50
Pothos aurea: Leaves cordate, beautifully varigated with yellow, very large. Good plants	.50
Syngonium alba: Lf-blade circinate, lobed and divided, varigated with white.	1.00

SUCCULENTS:

Cereus triangularis, 3-sided stem, immense white, nocturnal fls.	.25
Euphorbia candelabra: Slender, jointed stems, very small lvs.	.50
Euphorbia lactea. Looks like an Opuntia.	.25
Bryophyllum pinnatum. Large, notched lvs., forming new plants at sinuses. Flowers in terminal racemes. Reddish.	.15
Kalanchoe sp. Tall, very curious & interesting, tiny, spoon-shaped lvs., on ends of slender, mottled branches. Flowers said to be very large, red. Plants, various sizes 10¢ to	1.50
Pedilanthus tithymaloides. Wiry, zigzag stems, fls slipper-shaped, red. Large plants	.50
Phyllocactus latifrons. Flat, broad bladed. Flowers large, white, nocturnal. 25¢ to	1.00
Stapelia grandiflora: African asclepiad, stems leafless about 6-in, flowers large, star-shaped.	.50
Talinum sp. Phillipines. Fleshy-stemmed plant, bright green lvs. Flowers cerise, opening flat, golden anthers.	.50
<i>Paracelastrina</i> flowers - tall panicles, pink - late fall	.50

AQUATICS:

Ceratopteris deltidea: Floating Fern. Lower leaves 3-lobed, Spore fronds compound, with many, narrow divisions. 25¢ to	1.50
Cyperus alternifolius: Umbrella Grass. For pool background, heavy	.50
Myriophyllum. Parrot Feather: Beautiful for aquarium or pool.	.25
Piaropus crassipes. Water Hyacinth. Beautiful blue flowers.	.25
Salvinia auriculata: Small, floating plants of Fern family, portion	.25
<i>Calanthe tybiflora</i> .15	
Byrophyllum daigremontianum, 25-	
Aloe vaiegata sp	25- 50

MISCELLANEOUS:

<i>Antigonon leptopus</i> :	Pink Vine. Cordate leaves. Long racemes of beautiful, pink flowers, freely borne. 25¢ to	\$.50
<i>Asparagus sprengeri</i> :	Trailing, white flowers, red berries. For pots or porch boxes. 25¢ to	1.00
<i>Asystasia Gangetica</i> :	Trailing plant, flowers tubular, bilabiate, white with lavender striped, in winter.	.25
<i>Bougainvillea</i> :	Crimson Lake. Heavy plants.	1.00
<i>Camphor</i> :	Small plants 10¢. All sizes up to Special prices on above, by 100 or 1000.	1.00
<i>Cassia corymbosa</i> :	Lovely yellow flowers, blooms in small sizes.	.25
<i>Cassia grandiflora</i> :	Yellow flowers, half-scendent. <i>very large</i>	<u>1.80</u> .25
<i>Clitoria Ternatea</i> :	Butterfly Pea, climbing to 15-ft. Beautiful deep-blue flowers.	.50
<i>Clerodendron Thompsonae</i> :	Scendent shrub, tubular red fls, from white calyx. 50¢ to	1.50
<i>Clerodendron Bungei</i> :	Larger-leaved shrub, corymbose heads of pink flowers. <i>blooming plants</i> 25	1.00
<i>Crotons</i> :	A few large, specimen plants 1.50 and .50 <i>up</i>	2.50
<i>Daedalacanthus nervosus</i> :	Beautiful, deep-blue flowers, from white bracted heads.	1.00
<i>Erythrina herbacea</i> .	Attractive, trifoliate leaves, tall spikes of brilliant red flowers in spring.	1.00
<i>Erythrina poeppigiana</i> .	<i>just in</i> Immense trusses of flowers in two shades coral red. Blooms all through warm weather. 50¢ and	1.00-5-
<i>Hibiscus, Hawaiian</i> :	#1, large pink flowers. Large plants	1.00
<i>Hibiscus</i> "	#2, Medium, deep red fls, white veining	1.00
<i>Hibiseus</i> .. "	#3, Large, pure yellow flowers As above, large, specimen plants	1.50 2.50
<i>Pepperomia cumulicola</i> :	Charming, small plant, rare.	.50
<i>Stillingia sebifera</i> :	Shapely tree, cordate lvs, turning red in fall. Deciduous. From China. Tallow Tree. <i>very large</i> 25	1.00
<i>Strobilanthes anisophyllus</i> :	Narrow-leaved, herbaceous bearing numerous blue flowers, throughout warm weather.	.50
<i>Thevetia nerifolia</i> .	Narrow lvd, large shrub. Salmon and pink fls.	.50
<i>Tillindsia usneoides</i> :	Spanish Moss. Fine foliage decorations.	.25

FERNS
 In The Collection of
 Mr. W. D. Diddell
 333 E. 7th St.
 JACKSONVILLE, FLORIDA

<i>Achrostichum danaefolium</i> :	One of the largest of our ferns, reaching height of over 15-ft, with spread nearly as great. Only large, heavy, boxed specimen, crested and divided:	\$ 7.50
<i>Adiantum capillus-Veneris</i> , Maidenhair.	Small plants	.35
<i>Adiantum tenerum</i> , Florida & tropical America.	Small plants	.50
<i>Anchistea Virginica</i> :	Grows to 6-ft. Heavy plants 25¢ and	.50
<i>Asplenium abscissum</i> :	Small. Leaves rosetted, pinnate. Rare.	1.00
<i>Asplenium Curtissii</i> .	Rare, endemic in N. Florida. Beautiful.	1.00
<i>Asplenium heterochroum</i> .	Rare. Slender, small, Rock-Fern.	1.00
<i>Asplenium platyneuron</i> .	Slender, to 2-ft. 1-pinnate.	.50
<i>Asplenium pumilum</i> .	VERY RARE. Sterile fronds 3-lobed like 3-lvd Clover, sporophyll 5-lobed. 3-5 in high.	10.00
<i>Asplenium verecundum</i> :	Rare. Small, delicate fronds in rosettes.	1.00
<i>Blechnum serrulatum</i> .	Tall handsome, pinnate-lvd. Tropical	.75
<i>Botrychium obliquum</i> , Fern ally.	Produces 1 sterile frond and 1 sporophyll, per year.	.25
<i>Campyloneuron phyllitidis</i> :	Strap Fern: Tall, narrow, undivided fronds, areolate veining. Very striking and handsome. 3-in pots 50¢, larger 75¢ to	1.50
<i>Ceratopteris deltoidea</i> , Floating Fern:	True aquatic, floating in water. Striking and beautiful. Basal leaves 3-lobed, sporophylls much divided, divisions very narrow. Fine for pools and aquarium. Young plants 15¢, 2 for 25¢, larger 25¢ & 50¢. Specimen plants 1.00. <u>VERY LARGE</u>	2.50
<i>Dryopteris normalis</i> :	One of the handsomest of our native Ferns. Up to 6-ft. Blade broad, with long-attenuate tip. 25¢ &	.50
<i>Dryopteris ampla</i> .	True Tree Fern. Very beautiful. One of finest for pot culture. 75¢ and \$1.00 to	5.00
<i>Dryopteris Floridanum</i> :	Tall Fern, with heavy, coriaceous fronds, sporophylls larger than sterile fronds and once again pinnate in upper, fertile pinnae. 50¢, \$1.00 to	1.50
<i>Dryopteris thelypteris</i> ,	tall slender Fern, to 5-ft. Good plants	.25
<i>Lorinseria areolata</i> , (<i>Woodwardia angustifolia</i>).	Under cultivation, fronds toothed & scalloped, some being almost once again pinnate.	.25
<i>Nephrolepis exaltata</i> ,	Sword Fern. Boston Fern. Heavy plants	.25
<i>Osmunda cinnamomea</i> ,	Cinnamon Fern.	.25
<i>Osmunda regalis</i> ,	Royal Fern. Grows to 8-ft. 25¢ to	1.00
<i>Phlebodium aureum</i> ,	Golden Polypody: Very beautiful, good house Fern. Broad, heavy fronds. 50¢, \$1.00 &	2.00
<i>Polypodium incanum</i> ,	Resurrection Fern. Dries and curls up in dry weather, to freshen up again after rains. Grows on wood fences, old shingle roofs & east side of trees.	.25
<i>Polyodium plumula</i> :	Beautiful, tropical Fern, bluish-green fronds, to 6-ft. Young plants	1.00
<i>Pteris crctica</i> :	Rare and hard to handle. <i>requiris lini</i>	1.00
<i>Salvinia auriculata</i> .	Fern Ally. Small, aquatic, floating plants	.25
<i>Tecaria heracleifolia</i> .	One of the most beautiful and distinctive of our native, tropical Ferns, Fronds halberd-shaped.	1.00
<i>Vittaria lineata</i> .	Shoestring Fern. Fronds less than $\frac{1}{4}$ -in wide, but reaching length of several feet. Spores borne in two parallel lines, the length of sporophylls. Epiphytic in stems of Palmetto trees.	1.00

Plants Native to North Florida

In the Collection of

Mrs. W. D. Diddell
333 E. 7th St.
Jacksonville, Florida.

Aesculus Georgiana. Handsome, digitate foliage. Red flowers in long, terminal spikes. To 30-ft, usually 10-12-ft. Very few, small plants now at 50¢, heavy, field-grown roots ~~in~~
~~January, at~~

		\$ 1.00
<i>Arisaema Floridana</i> , Southern Jack-in-Pulpit		.25
<i>Asimina grandiflora</i> . Drooping, white flowers.		.50
<i>Asimina paviflora</i> , small purple flowers		.50
<i>Azalea nudiflora</i> , pink to white flowers. Winter delivery		1.00
<i>Acer rubrum</i> , Swamp or Red Maple.		.50
<i>Amorpha fruticosa</i> . Long spikes of small, purple flowers.		.50
<i>Ascyrum obliquum</i> . Compact, bushy, small shrub, nearly always in bloom, yellow, 4-petaled flowers. Heavy plants		1.00
<i>Amsonia ciliata</i> . Handsome, loose shrub, bluish flowers. 50¢ to		1.00
<i>Clematis viorna</i> typ Nodding, bell-shaped flowers. Purple		1.00
<i>Clematis reticulata</i> . White flowers		1.00
<i>Crinum Americanum</i> . Pinkish-white flowers in umbels		.25
<i>Canna flacida</i> , native Canna, yellow flowers		.25
<i>Cardiospermum hallicacabum</i> , Balloon Vine.		.25
<i>Decumaria barbara</i> . Heavy climber, handsome foliage, white fls		.50
<i>Duranta plumieri</i> . Drooping racemes, purple fls, yellow berries.		1.00
<i>Guilandina</i> sp. Climber, very prickly, large, compound leaves.		
Large, specimen plants, only		2.50
<i>Gilia coronopifolia</i> . Biennial, large, terminal spikes flaming, red flowers. To 6-ft. One-year plants per doz.		1.50
<i>Gelsemium sempervirens</i> , Yellow Jasmine, beautiful, fragrant, yellow flowers. Good roots.		.25
<i>Gordonia lasianthus</i> , Loblolly Bay, beautiful evergreen, large white flowers. 50¢ and		
Hibiscus grandiflorus, white, flowers 10-12-in. across		1.00

Plants Native to North Florida, Continued.

<i>Leucothoe axillaris</i> . One of the most beautiful of our native evergreen shrubs. Fls white, in dense drooping racemes.	\$ 1.00
Heavy roots, tops cut back	
<i>Lippia nodiflora</i> . Flat ground cover, for any difficult situation	2.25 per lb
<i>Magnolia grandiflora</i> . Magnolia. 50¢ up according to size.	
<i>Magnolia glauca</i> , Sweet Bay	.50
<i>Myriophyllum</i> ; Parrott's Feather. Beautiful aquatic.	.25
<i>Orontium aquaticum</i> , Golden Club. Large plants	.50
<i>Pontederia azurea</i> , smaller than <i>P. cordata</i> , fls deeper blue	.25
<i>Piaropus crassipes</i> , Water Hyacinth, Naturalized. Beautiful, floating aquatic! Pale lavender fls, yellow spot, surrounded by deeper purple, on standard. \$1.25 per doz. each	.25 1.50
<i>Pavonia Lecontei</i> . Fls bright red, bell shaped, drooping. Native only in Florida and S. E. Georgia. 25¢ and	.50
<i>Passiflora incarnata</i> . Maypop. Beautiful, blue fls. Large plts	.50
<i>Pepperomia Cumulicola</i> . Wild Pepper. Little-known plant, endemic on only one island in mouth of St. John's River. Not growing, can be used as ground cover, but makes good pot plant.	.50
<i>Psychotria lanceolata</i> . Wild Coffee. Shrub, white fls, berry red	.25
<i>Rhamnus Carolinensis</i> . Slender tree, small, white fls	.25
<i>Ruellia coliosa</i> . Herbaceous to 2-ft. Fls large; blue	.25
<i>Rivina humilis</i> , Bloodberry. Slender, much branched shrub to 4-ft. Fls small, pink, followed by berries size & shape and color of drop of blood. Blooms all year, so that plant is usually completely covered with long racemes of fls and berries.	.25
<i>Sarracenia psittacina</i> . Parrot-beaked Pitcher plant. Endemic in Florida and S. E. Georgia. Lvs rosetted, flattened to ground, orifice of tube almost covered by beaked hood. Rare.	1.00
<i>Sarracenia variolaris</i> , Pitcher Plant. Watches. Lvs erect, large	.25
<i>Tecoma stans</i> . Yellow Elder. Large shrub, beautiful, fragrant, tubular, yellow fls. Tender. South Florida.	.50
<i>Thallia divaricata</i> . Tall, handsome, marsh plant, drooping panicles of purple-blue fls. Rare.	1.00
<i>Tradescantia Virginiana</i> , Spiderwort. Blue fls.	.25
<i>Yucca aloifolia</i> , Spanish Bayonet	.50
<i>Zania Floridana</i> , Our native Cycad, small plts 25¢ , large	1.25

Live Oaks, Laurel Cherry, Camphor, Sweet Gum, Swamp Maple, Salt Bush, Palmetto, seedling plants 10¢ & 25¢, larger, priced according to size. Any plant not on this list, but which can be found in this section, cheerfully collected, at reasonable price.
